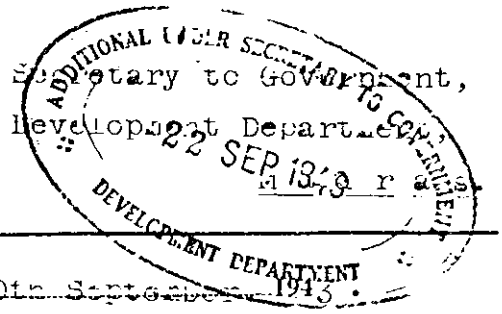
From (Name) A. Khaleeli Esq., I.C.S.,

Designation Director of Industries and Commerce,

Station Madras.

To

The Secretary to Government,
Development Department.



Enclosures:

No. 2323-D/43 dated 20th September 1943.

Sir,

Sub: Government and Kollegal Silk Filatures, Kollegal Insurance against risk.

The General Manager, Government Silk Filatures, has raised the question whether it is necessary to insure filature buildings, machinery or stock of cocoons, silk, firewood, etc in the filatures. The Kollegal Silk Filatures Ltd. had insured their buildings etc., against fire. Since the Kollegal filatures have been taken over by Government, it is for consideration whether the insurance already effected may be continued to stand.

Article 227 of the Madras Public Works Account Code contemplates insurance of Government buildings in the case of specially valuable property liable to special risks. The cocoons and silk yarns produced in the filatures are valuable and liable to special risks. I consider it prudent to insure, if not the filature buildings and machinery, at least the silk yarns and cocoons stocked in these buildings. I request the early orders of Government in the matter.

Khaleeli

CR/1044 Director of Industries and Commerce.

Copy of letter from the Director of Industries and Commerce, Madras to the Secretary to Government, Development Department, Madras No. 3984D/44 dated 28-12-1944.

Sub: Silk Filatures at Kollegal - Fire fighting staff - Employment of.
Ref: D.O. No. 56374D/44-5 Dev. dated 12-12-44 from the Addl. Under Secretary to Government, Development Department and Government Memo. No. 29072D/43-14 Dev. dated 18-10-1944.

p/19abre

It is stated in the D.O. cited, that the fire risk at Kollegal is very small and that there is no need to employ a special staff to handle the trailer pump. I cannot subscribe to this view. The General Manager, Government Silk Filature and the Manager, Kollegal Silk Filatures have both recorded their views that the risk of fire in the Filatures is appreciable. Kollegal is an out of way place the civic affairs of which are in charge of a panchayat which does not afford the normal facilities generally provided in towns especially in respect of fire fighting services. The risk of fire in the filatures is not to be under-rated, particularly as the boilers in the filatures are fired throughout the day and on several nights in the week. Further the filature buildings are mostly made of combustible materials and the fire extinguishers and buckets provided in these buildings are meant for use in the initial fire-fighting stages and would completely prove inadequate in a real emergency. A trailer pump is in my opinion, very necessary. The staff proposed to work the trailer pump is the barest minimum required. I have in my letter under reference proposed to supplement this staff with volunteers recruited from amongst the Filature staff in order to make up the full complement of staff required for each shift, according to the Director of Fire Services, Madras. If in spite of my recommendations, Government decide that the trailer pump should be disposed of and no special

22

special staff trained to work it, I shall make tha ~~xxx~~ arrangements ordered by Government.

2/ As regards insurance of the silk filatures at Kollegal against fire risk this risk is as already pointed out appreciably great in a silk filature than in other Government factories. It is usual I believe, to insure ~~x~~ such factories in western countries. I consider it therefore prudent to insure <u>at least</u> the silk yarn and cocoons stocked in the filatures if Government are decidedly against insuring the filatures buildings and machinery vide my letter No. 2323-D/43 dated 20-9-1943. p/above

3/ As regards Government's suggestion to recover a small charge from the purchasers of silk, I would point out that this question does not arise in so far as the Government Silk Filature is concerned since that factory is worked at cost for H.M.G. As regards Kollegal Silk Filature when the contract is renewed the insurance premia payable will be taken into account in determining the cost of silk. The General Manager considers it desirable to insurance the properties and stocks with an Insurance Company so that if fire occurs and stocks or buildings are destroyed, the Filature would be able to realise the loss sustained which loss would not fall on Government. I agree with him. X'n p.19.1

C. 29072 D/43

Subject: Industries Secretariat Govt's Kollegal Silk Filatures – Insurance against risk.

Ref: From D.I.&C., no. 2323-D/43 dated 20.9.43

The D.I.&C proposes that the silk yarn & Cocoons stocked in the Govt.'s Kollegal Silk Filatures, Kollegal at least may be insured, if not the buildings and the machinery. He also raises the question whether the insurance already effected by the Kollegal Silk Filatures may be continued to stand.

'X' on p. 1 c/f

'B' on p. 1 c/f.

p. 5 c/f of (E)

In G.O. no: 103 D/30.1.43, the proposals of the Yarn Commissioner to insure the stock of yarn at the Salem Central Dept of the Collective Weaving Centres were negatived; and the insurance of the Quinine Factory, Nadhuvattam, originally sanctioned, was discontinued in G.O. no. 3287 Dev D/18.12.43

= p. 8 c/f of (N)

The principle in both the cases was that Govt. Carries its own insurance risks and that Govt. property should not be insured. On the analogy of the decisions cited, it is for orders, whether the present proposals of the D.I.&C to insure the stock of Silk yarn & Cocoons stocked in the factories will be negatived and whether the D.I.&C will be informed that the insurance of the Kollegal Silk Filatures need not be continued further.

103 Dev. & 30.1.43, no exception need be made (11) in the present case to the general rule that Govt property should not be insured at the cost of the Govt. AIR 1919 at p. 107 (p 107).

7.10.43

This is a special & exceptional case because we produce the silk for sale to the G. of I. and the sale price is to be fixed to cover our cost of production on the basis of audited figures of expr. If we had any big loss by fire, there would be difficulty about recovering it thro' the sale price, as it would make the price unduly high in a particular half-year. The G. of I. would not be likely to agree to our making an addition to our sale price to cover this risk, as we do in the case of rice sold to the public. It seems that the simplest & most satisfactory course in this particular case would be to insure the buildings & stock, as there would be no difficulty about including the insurance premia in the cost of production for the purpose of fixing the sale price of the silk produced. p 1 of [From the D.I.t C. no. 2323 D/43 d 19.7.44]

p 13 of [Issued as Memo. 29072 D/43 - 10 d 12.8.44]

p 15 of [From the D.I.t C no. 2323 D/43 d 24.8.44]

pp 17-18 of [From the D.I.t C, no. 2323 D/43 d 5.9.44]

To Addl. 2 S.

This file relates to the proposal of the D.I.t C. to insure the two silk yard and Cocoons stocked in the Filatures at Kollegal, if even the buildings and machinery are not insured. The Finance dept. suggested that it is desirable to insure the buildings and stock and include the insurance premium in the cost of silk. The D.I.t C. was therefore asked to report separately in respect of each of the Filatures, the cost of insurance of the Cocoons and silk yarn alone and also the cost of insurance of the buildings together with the stock and Cocoons/silk

The figures given by him are tabulated below:-

(1)	(2) Value of Buildings, machinery and other equipment including Stock of Silk	(3) Insurance premium payable for ~~all risks~~ cl.(2)	(4) Value of Cocoons, Silk etc.	Insurance premium payable for cl.(4)
			Rs	
Govt. Silk Filatures Kollegal	~~8,28,817-14-0~~ 8,28,817-14-0	4351-9-0	3,26,106-0-0	1,855-12-0
Kollegal Silk Filatures Kollegal	2,03,814-0-0	934-15-0	1,27,295-0-0	588-15-0
	Total	5286-8-0		2444-11-0

The D.I.G. suggests that only particular portions of the buildings in the two factories be insured. Of the buildings with the stock of silk etc. were to be insured, the annual cost of insurance would come to Rs ~~6207-5-0~~ 5286-8-0, while if the stock of silk etc. alone were to be insured, the corresponding cost would be Rs ~~2733-14-0~~ 2444-11-0 for both the filatures. The buildings of the Govt. Silk Filatures are the property of the Govt. of India. It is however proposed to include the insurance premium in the cost of produce of ~~the Govt. Silk Filatures~~ silk, and the Govt. of India need not therefore be insured. ~~In previous cases~~, the Govt. turned down the proposal to insure Govt. property in this and other cases on the principle that Govt. carries its own risks of insurance and therefore, the property of Govt. should not be insured. It is now for orders whether, in the light of the remarks of the Finance Secretary on p2 above, an exception will be made in respect of the proposal of the D.I.G. at p1/c and if so whether insurance will be effected for the stock of silk, cocoons etc. alone, ~~will be insured~~ or of the ~~silk~~ stock with the buildings (machinery specified) + machinery also. (The value of cocoons & Silk will be a fluctuating figure. Premium has been determined on this basis)

4351-9-0

Dev. Dept.

This file deals with the proposal to insure certain specific properties of the two silk filatures at Kollegal against risk by fire. Though the policy of the Govt. is not that Govt. property should be insured, Fin. Secy. (Mr. Dodwell) suggested for the reasons noted at p. 2 above that the properties of the two silk factories at Kollegal might be insured and the cost on insurance premia included in the cost of production of silk. The D.I. & C. has now reported the expenditure involved in insuring specific portions of the buildings of the factories together with the stock of silk and cocoons and also of the stock of cocoons and silk alone. The particulars of cost are tabulated below:

To Addl. U.S.

	Total	5,286 8 0		2,444 11 0

This dept. consider that portions of the buildings together with the stocks of silk and cocoons in the two factories indicated by the D.I.& C. may be insured. Fin. Dept. agree to the proposal.

It is now for orders

(i) whether in view of Fin. Secy's remarks at p. 2 above, the properties of the two silk filatures at Kollegal will be insured against fire, as a special case, in modification of the general policy; and if so

(ii) (a) whether the proposal to insure particular items of the buildings together with the stock of silk and cocoon will be accepted. (The annual premia on this account will be Rs. 5,286-8-0.)

(b) whether the stocks of silk and cocoons alone in the two factories (leaving out the buildings) will be insured against fire. (The annual premia on this account will be Rs. 2,444.11.0.)

28.9.44 28/9/44 Finance's views are set forth at pp. 4-5 above, and Fin. Secy. has invited that A.I's attention may be drawn to Mr. Rodwell's minute on the subject on P. 2 above.

Proposals (i) and (ii a) above may be approved. For orders.

A4.

A1 28/9/44

The annual premia would amount to Rs 5286. I would include this in the cost of production of silk the sale price accordingly but this sum I would pay either into a special assurance fund or into

29.9.44

as I mean my remarks paper

Z | the whole fort account. Fort is big enough to be able to pay for the loss if a fire should occur

But if the risk of fire is appreciable, I would see that a fire-proof safe & heater-pump & smoke is stationed there at night-time

fmw
29/9/44

X | We have said time after time that Govt carries its own insurance & I can see no possible justification to add to any insurance company's profit. I am entirely at one against any such scheme.

NS 10.10.44

A pencil addition in this draft is suggested. The proposal practically amounts to insurance of the items ~~[illegible]~~ by this Govt. Fin. will have to consider in due course to what head the percentage charges for carrying this risk should be credited. The amounts will not be large enough to make it worth while to start a special fund.

To Addl-n.s.

For orders whether the Draft memo below may now issue as amended by Finance. It is for consideration whether, in connection with Finance's minute at Z on pp 6-7 above dated 14.10.44 and at M on p. 7 above, the points of the Secy's at X above will be circulated for perusal before the memo issues. Hardly necessary perhaps to circulate at this stage "X" above can be considered in O in due course. Draft as added to by Fin Sec's may issue.

pp 16-17 of p. 19 of pp 21-22 of

To Addl. n.s.

Please see paras 2 & 3 of the D. of E's letter at pp 21-22 of in reply to this memo at p 19 of.

~~This letter is in reply to a D.O. of the 1st of above based on the minutes of A3 & A4. The proposal in the 1st of above is to employ a fire brigade staff to man a trailer pump. If it is decided to dispose of the trailer pump already purchased, it would seem necessary to insure at least the Cocoms & Silkyarn~~

C 5637 4D/44 at p 13 of above

P.T.O

Reference is invited to the orders in circulation at pp 6 and 7 above. A3 has also observed that the Silk and cocoons alone might be insured against loss, in the event of removal of the Trailer Pump from Kollegal.

In the light of the above observation, the question of insuring the Silk and Cocoons of the Silk Filatures will arise only if the Special Fire fighting Staff proposed by the D.D.Sc (and dealt with separately) is not sanctioned. The question has been submitted for orders in the above. The proposals contained in paras 2 & 3 on p 22 of may perhaps lie over till orders are passed on the Staff for the Trailer Pump.

For orders.

31/12/44

To Addl. A.S.

Orders have issued in the G.O. at pp 21-22 of regarding the staff for the Trailer pump. Mr. Priestley (then A3) observed in December 44 that the silk and Cocoons alone might be insured against loss, if the Trailer pump is removed from Kollegal. Since the staff is sanctioned and the Trailer pump is retained at Filatures, with the requisite staff, it is for orders thereon whether the proposal to insure the properties of the Filatures in para 2 & 3 at p 22 of needs be pursued.

Dir. may also see before circulation, if the proposal is revised.

10/6/45

The question of insuring the properties in the Filatures may be dropped.

Finance may see.

UNDER SECRETARY 9 JUN 1945 DEVELOPMENT DEPARTMENT

To H.S

S.C.S.T D/45 p1 of

This file deals with the proposal of the D.D.& C. to insure the properties of the Govt. Silk Filatures, Kollegal and Kollegal Silk Filatures, Kollegal against fire risk. Sir Hugh Hood minuted that the Govt. carries its own risk and the Govt. property should not be insured. The question of insuring the properties of the Filatures against fire risk was then ordered to lie over, till the proposal of the D.D.& C. to employ trifling Staff for the Trailer pump at the Filatures was decided. It was decided that if the Staff was not sanctioned, the trailer pump might be removed, and the properties of the Filatures might be insured. A Special Staff for the Trailer pump has now been sanctioned; the question of insuring the properties of the Filatures may now be dropped. (Subject to orders, a draft order is submitted below for approval.
